

INTERNSHIP / MASTER THESIS / BACHELOR THESIS

Business Process Management

Are you looking for an opportunity to write your thesis in an industrial environment or obtain valuable industry experience, during or after your technical education? Here is one of many interesting topics we have on offer. We are also very open to your own ideas in order to create a matching opportunity for you at VAT.

Innovation has always been the driving force at VAT since the company was founded over 50 years ago. This has made us the world leader in vacuum valves and vacuum sealing technology. This pioneering spirit motivates us daily to meet our customers' requirements with enthusiasm. Together with our employees we stand for passion, innovation and quality. VAT is headquartered in Haag (Switzerland) and employs approximately 2 000 people worldwide. It has production centers in Haag (Switzerland), Penang (Malaysia) and Arad (Romania) as well as a production facility in Xinwu (Taiwan). With our customers mainly being situated in the United States and Asia, this provides a great opportunity to start an international career.

What you will explore:

You will be part of a young team that VAT has established for business process management. In this area, we can offer you several exciting topics for Bachelor/Master theses and/or internships, such as

- Business process optimization with growing business
- Digitization potential for a growing company
- Digitization of business processes in corporate functions / operations / sales etc.
- Effects of digitization in the context of Industry 4.0 on business process management
- Role of business process management in the digitization process of a company
- Influence of business process management on employee behavior
- Impact of business processes management on a functional organization (From silo thinking to integrated customer value chain)
- Implementation of a continuous improvement process to develop optimization measures

We are also very open to your own business process management ideas to create a great opportunity for you at VAT.

What you will need:

- Bachelor/Master student of Fachhochschule/University/ETH
e.g. MTEC, industrial engineering, mechanical engineering, economics/IT with focus on business process management
- Curiosity and ability to think outside the box
- Structured, result-oriented and reliable way of working

Are You Ready for the Challenge?

Then we look forward to receiving your **electronic application sent to André Sutter** (Head of Business Process Management VAT).
